3C METAL'S 'MY HAND IN SAFETY' CAMPAIGN 2020

3C Metal has launched a new safety campaign to raise awareness about the importance of hand safety.

Hand injuries have been identified as a common risk, particularly for those working in 3C Metal's workshops and onsite. The campaign aims to get our teams thinking about hand safety and the steps to be taken to reduce the risk of injury. The campaign also reinforces the importance of hand hygiene due to COVID-19.

The theme of the campaign is "My Hand in Safety". The campaign involves a presentation to employees to encourage hand safety and hygiene awareness, as well as a range of activities. The activities include having each employee place a handprint on a canvas and certificate to pledge their commitment to hand safety. Other campaign efforts include a hand sanitation activity and small gifts for employees with the campaign logo.

The campaign will be rolled out to all the Group's entities by the end of Q3 2020. During this time, posters of the hand prints will be displayed around 3C Metal's premises, reminding all of their commitment to the campaign. For the rest of the year, "My Hand in Safety" will be discussed as a toolbox talk topic.

3C Metal will continue to explore new ways to raise awareness about workplace hazards and the importance of keeping safety as the number one priority.
