

Client: TIGF

### Project Brief

- ▶ Project: R2AL – Air and NG Networks ( EPC Contract)
- ▶ Location: Lussagnet, France
- ▶ Duration: 8 months
- ▶ Team: Up to 30 Technicians

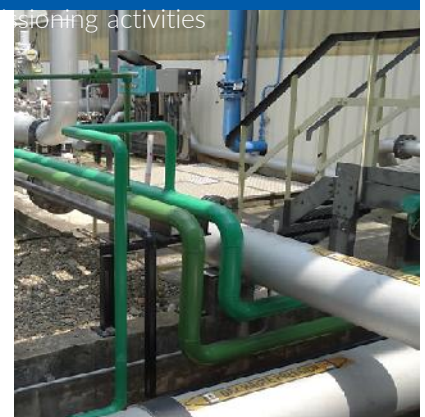

### Scope of Work

EPC Contract for 2 Air and Nitrogen Gas systems for the Underground Gas Storage Facility at Lussagnet (23% of France’s gas storage capacity in 2014)  
 Dismantling of existing system  
 Refurbishment of a 80 MT air tank  
 Project works including:  
 Civil work and building construction for the 4 compressors and NG Generator  
 Support and piping installation  
 Electrical system  
 Instrumentation

### Major Achievements

Project executed successfully with no disturbance to the operations of the storage center  
 Piping and structural scopes performed on site:  
 4 000 m of pipe from 4” to ½” welded on site with supports  
 Coordination with control center to minimize shut down time of 24” gas pipe and compressors
