

3C Metal Middle East has an environmental management system that is consistent with the strategic direction of the company. This system is based on the standards of ISO 14001:2015, legal and other requirements.

This policy covers the activities performed by 3C Metal Middle East, which are engineering, procurement, fabrication, and installation of high-pressure piping, industrial piping and structural fabrication.

3C Metal Middle East is committed to the protection and enhancement of the environment and keeping environmental impacts of our operations to a minimum. To fulfill our commitment, we will:

- Take environmental issues into account in all business strategies and initiatives.
- Ensure that environmental consciousness is firmly embedded in the company's culture and regularly demonstrated to all employees.
- Prevent pollution, reduce waste and minimize the consumption of resources.
- Consider the wider global impact of all our activities including those of our suppliers, customers and other stakeholders.
- Integrate climate change mitigation strategies to further minimize our environmental impact and enhance sustainability.
- Educate, train and motivate employees to carry out tasks in an environmentally responsible manner and ensure that our professional development strategy takes environmental matters into consideration.
- Ensure compliance with legal and other requirements.
- Encourage environmental consciousness among suppliers and subcontractors.
- Protect and, where possible, enhance the biodiversity and ecology in our workplaces, on our project sites and in the community.

3C Metal Middle East is committed to continual improvement of our environmental performance. This policy will be communicated to all staff, contractors and suppliers, and be available to the public through selected media.

Yannick Damry
Managing Director
