

3C METAL USA APPOINTED AUTHORIZED DISTRIBUTOR OF RBV ENERGY PRODUCTS

15 May, 2026

3C Metal USA Inc. has been appointed an authorized distributor of RBV Energy products in the United States. The agreement enables 3C Metal USA to supply RBV Energy products directly to clients across the region.

Under this partnership, 3C Metal USA will hold stock locally and manage stock movement to support client requirements and delivery schedules.

Operating from its new Houston facility, effective April 1, 2026, 3C Metal USA is positioned to store and distribute RBV Energy products while maintaining continuity of service for clients and suppliers. The location supports improved stock availability and delivery across the region.

The partnership expands 3C Metal USA's offering in line with market demand and supports more efficient access to RBV Energy equipment for its client base.

The agreement reflects the continued development of 3C Metal Group's presence in the United States and its focus on expanding its service offering.

About RBV Energy:

RBV Energy provides high-pressure piping and solutions for the energy sector, supporting applications across oil and gas and other industrial markets. www.rbvenergy.com

About 3C Metal Group:

3C Metal is a global provider of turnkey engineering solutions to the oil and gas, petrochemical, renewable energy, power generation, marine and mining industries. The company delivers EPCI services with core capabilities in heavy steel fabrication and high-pressure piping processes and techniques. 3C Metal USA Inc., the Group's U.S. subsidiary, was established in Houston in 2017. www.3cmetal.com
